In their own words

“Under this NDC 3.0, Palau is committed to reducing GHG emissions by 2035 without additional removals by 20.0 ktCO2e/yr under the “with measures scenario” that includes actions such as new rooftop solar systems, energy efficiency in water and sewer systems, non- motorized transport, and composting at the M-Dock landfill, amongst other measures.”

Third Generation NDC, 2026-01-29, p. 8
