In their own words

“The Tonga Climate Change Policy sets the targets of ‘a transport system that is not reliant on fossil fuels’ and ‘100 per cent renewable energy’. This LT-LEDS aligns with this aim as well as with the aims of Tonga’s Second NDC which states a target of reducing GHG emissions from the combustion of fossil fuels by 13 percent (16 Gg) by 2030, compared to 2006.”

LTS, 2021-11-11, p. 39
